PROFESSIONAL EXPERIENCE

Product Owner & Technology Project Manager | AB InBev | Apr 2023 - Present

Global SAP S/4HANA Transformation Program

- **Global Product Ownership:** Own the global ServiceNow ITSM catalog and product backlog, leading a 2-developer team and governing incident/request services, queue ownership, SLAs, prioritization and continuous platform evolution across multiple countries.
- **Product Discovery & Roadmap:** Lead end-to-end discovery and process flow mapping with business and technology stakeholders, converting operational pain points into requirements, priorities, roadmap decisions, acceptance criteria and scalable operating models.
- **Platform Integration:** Designed the ServiceNow-Azure DevOps integration that automates Problem creation into DevOps area paths, strengthening traceability between production support and product delivery.
- **Product Analytics:** Defined KPI methodologies and decision rules for cross-period comparison across SAP transformation workstreams, including output/FTE, test productivity, workload and time-window normalization.
- **Executive Product Intelligence:** Designed and built an AI-assisted executive web application consolidating Build, Design/CORE, Deploy, Test, Cutover and Change Management data into productivity, capacity, workload and confidence views with Workstream drill-downs.
- **Learning Product Experience:** Structured SAP Learning Hub learning paths, onboarding and follow-up rituals; designed self-service enablement and SAP Activate learning products with guided navigation, progress tracking, assessments, notes and targeted study support.
- **Adoption & Communication:** Led bilingual kick-offs, onboarding sessions and training in Portuguese and English, and launched an internal transformation podcast with program leaders and specialists to improve transparency and stakeholder engagement.
- **AI-Assisted Product Building:** Use generative AI to accelerate research synthesis, information architecture, UX iteration, content structuring, analytics and HTML/CSS/JavaScript prototyping while retaining ownership of validation, business logic and product decisions.
